Tips:

Only parcel that have been weighted can be ordered. After receiving the package, the warehouse will measure it, and the measurement standard is according to customs requirements.

Different countries and channels have different standards. If you are unable to place an order, please ask assist from customer service.

The default invoice address is the delivery address, and for other delivery addresses can be checked [Shipping to a different address], click [Ship with a different address] to select the saved address, and click [Place Order], and wait for verify.
